WONDERZYME, INC.

General Instructions for use:

1. Dilute **NZ** into water then mix thoroughly.
2. For general usage, 1 part **NZ** should be diluted with 200 parts water. Increase the solution levels as needed.
3. To apply **NZ**, use: a spray bottle, backpack or power sprayer.
4. Use freshly diluted **NZ**. Once diluted, consume immediately.
5. Wash hands thoroughly after use.

Precautions

1. Keep out of reach of children.
2. Avoid direct contact with eyes & skin.
3. For repeated or prolonged skin contact, wear suitable protective gloves. If needed, wear eye protection and appropriate clothing.
4. If come in contact with eyes & skin, flush immediately with water. If ingested, drink a glass of water. In all cases, consult a doctor immediately.
5. DO NOT use polyethylene terephthalate (PET) bottles as container for **NZ** in its concentrated form.

Storage

Keep in original container.
Store at moderate temperature in dry,
well ventilated place.

Plant address: #78 San Isidro, Cabuyao, Laguna

- ➔ All natural plant fiber extract
- ➔ Anti-fungal and anti-bacterial
 - Kills 99.9% bacteria, yeasts, molds & fungi **in seconds!**
- ➔ Organic, bio-degradable, non-flammable & 100% environmental friendly
- ➔ Non-toxic in its diluted form
- ➔ Non-corrosive even in concentrated form
- ➔ Paraben- and alcohol-free
- ➔ Safe to spray diluted solution around humans, animals and plants

What is Naturezyme?

Naturezyme is an all natural, multi-functional concentrate that acts as a disinfectant, odor eliminator, declogger/degreaser and compost activator.

Naturezyme (NZ) is derived from a plant fiber extract including musa sap, seaweed and ricebran combined with mineral salts and water.

Naturezyme

ALL-NATURAL CONCENTRATE

Disinfectant

Odor Eliminator

Declogger/Degreaser

Compost Activator

Dilution Recommended Application

Dilution - 1:200

1 tsp NZ for every 1 liter water

OR

0.5% NZ on the volume of liquid to be treated

Properties & Features

- ➔ Highly alkaline (*pH of 13.0-13.6*)
- ➔ Powerful electrical property (**Oxidation Reduction Potential/ORP -140mV to -180mV**)
- ➔ Potent phytochemical elements
- ➔ High anti-oxidant property
- ➔ Non-toxic in its diluted form
- ➔ Non- flammable
- ➔ Non-corrosive even in concentrated form
- ➔ Paraben- and alcohol-free
- ➔ Biodegradable & 100% environment-friendly

Benefits and Advantages

- ➔ Multi-functional actions as **disinfectant, odor eliminator, degreaser/declogger and compost activator**
- ➔ Works effectively and instantly
- ➔ Diluted form is safe to spray around humans, animals and plants
- ➔ A quality product of Wonderzyme **with over 20 years** of continuous development & testing

Uses and Functions

As ODOR ELIMINATOR

- ➔ Powerful electrical property breaks up chemical substances producing foul odor *such as ammonia, hydrogen sulfide, etc.* in the air into simple elements.
- ➔ Removes offensive odors emitted and caused by industrial, institutional and household wastes.

As DISINFECTANT

- ➔ High pH property results to its potent anti-fungal & anti-bacterial actions
- ➔ Kills 99.9% bacteria, yeasts, molds, fungi and other harmful organisms **in seconds!**

As DEGREASER/DECLOGGER

- ➔ Potent phytochemical elements can easily cleans contaminated areas, drain pipes and sinks
- ➔ High alkaline property unblocks clogged pipes by dissolving fats, greases and protein-based substances
- ➔ Declogs and dislodges blockages in tube lines without dissolving the pipes

As COMPOST ACTIVATOR

- ➔ Decomposes biodegradable materials and other organic matters
- ➔ Accelerates biodegradation

Broad Range of Applications for Industrial Use

Odor control for STP & ETP

Disinfecting and Odor control for Manufacturing Plants

Water treatment for factories

Waste management for Landfills & Dumpsites

Odor control for Wet Market & Slaughterhouses

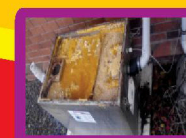

Garbage treatment for Garbage chutes & Trash bins

Toxic & Hazardous waste management in Hospitals

Degreasing at Kitchens of Hotels & Restaurants

Declogging Drain pipes & sinks

Plumbing & Janitorial Services in Buildings & Condominium

Disinfecting & Waste management in Malls & Dept Stores

Disinfecting Hospitals, Clinics as well as, *medical devices & tools*

**NATURAL
DIETARY
SUPPLEMENT**

perk UP[®]

3mL
(60 drops)

Helps Prevent Hangover

How to apply PERK UP[®]:

1. During Drinking

- **Beer & Cocktails:** Add 2 drops in each bottle or mug.
- **Hard drinks :** Add 2-3 drops in a glass of 200 ml of water as chaser.

2. Before Sleeping

- Drink a glass of water with 3-4 drops.

The next day if discomfort arises, drink plenty of water with 3-4 drops of PERK UP[®] in every glass of 200ml.

Use PERK UP[®] on a variety of alcoholic beverages.
Apply directly to the drink.

**What
is
PERK
UP[®]?**

- Produced from a variety of plant enzymes.
- Fortified with minerals such as sodium, potassium, calcium, iron, magnesium & zinc
- Natural, Highly Alkaline, Non-toxic & FDA-approved

**What
can
PERK
UP[®]
do?**

- Helps hydrate the brain to prevent hangover.
- Breaks down alcohol to prevent overworking on the liver.
- Protects the stomach from hyperacidity.
- If discomfort arises the next day, drink plenty of water with 3-4 drops of PERK UP[®] in every glass of 200ml.

**How
does
PERK
UP[®]
work?**

- PERK UP[®] supplements enzymes to break down alcohol in the liver from dehydrating the brain that causes hangover.
- PERK UP[®] is highly alkaline that neutralizes high acidity in the stomach, preventing discomfort thereby, prolonging the enjoyment of drinking.
- The strong anti-oxidant property of PERK UP[®] replaces lost electrolytes, replenishes vital fluids and sodium & potassium.

**WARNING: Do not drink contents directly.
If taken by accident, drink plenty of water.
Keep out of reach of children**

WHAT DOES

DO?

➔ Eliminates offensive ODOR

producing substances such as ammonia and hydrogen sulfide. It removes bad smelling gases and not just masks the foul odors.

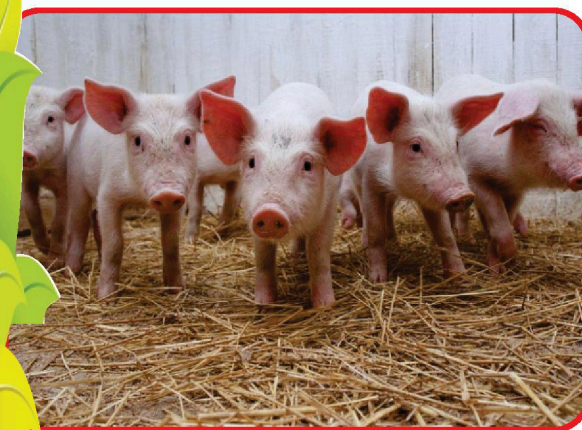

EP is able to clear out odors that attract flies to effectively keeps flies away from the applied area.

➔ Controls Diseases

caused by harmful microorganisms such as E.COLI, SALMONELLA, STAPHYLOCOCCUS, MOLDS & YEAST

➔ Accelerates conversion of animal waste into compost soil enhancer.

EP speeds up the decomposition of organic wastes by adjusting the acidic pH during the composting process to a higher pH level resulting to faster breakdown of wastes.

SWINE

POULTRY

GENERAL INSTRUCTIONS

- ➔ Dilute **EP** with water only when ready to use.
- ➔ Use a knapsack sprayer or power sprayer to apply the diluted solution.
- ➔ Mix 1 part of **EP** with proper recommended parts of water.
- ➔ For more specific information, please consult the Technical Services Officer of Wonderzyme.

PRODUCT SHELF LIFE

- ➔ **EP** concentrate has a shelf life of 5 years
- ➔ When diluted, solution must be consumed within 24 hours for best results

APPLICATIONS & RECOMMENDED USAGE

Dilution Rate	Area of Application	Usage
Concentrated (depends on count of mortality)	Mortality Pit	Fast Decomposing Mortality, Disinfectant & Odor Eliminator
1:50	Decomposing Pit	Decomposing WET Manure
1:100	Decomposing Pit	Decomposing DRY Manure
1:100	Tire Bath, Vehicle and Foot Bath	Disinfectant
1:100	Buildings & Facilities	1st Application for Disinfecting & Eliminating Odor
1:200	Buildings & Facilities	Maintenance for Disinfecting & Eliminating Odor
1:1000	Feeds & Water	Water quality enhancer

PRECAUTIONS

- ➔ **Keep out** of reach of children
- ➔ **Avoid** direct contact with skin. If in contact, flush affected area with water.
- ➔ **If swallowed**, immediately drink plenty of water.
- ➔ **Avoid** contact with leather and aluminum materials.
- ➔ **Do not** store in PET plastic bottles.

BACTERIAL TEST RESULTS

EP applied on flooring of PIGPEN

EP applied on housing of POULTRY

MICROBIAL TEST RESULTS

Test Organisms	Initial Microbial Count before Exposure, CFU/ml	Final Microbial Count after Exposure, CFU/ml	Percent Kill/Reduction
Salmonella Enteritidis BIOTECH #1963	4.2 x 10 ⁸	2	99.99%
